BATTERY & FIRE PROTECTION WITH PYROBUBBLES

Innovative Ideas for Fire Protection, Fire Prevention and Extinguishing

The **BENGALO SAFE** from GENIUS

The Bengalo Safe consists of a specially designed protective container filled with PyroBubbles®.

The Bengalo torch is picked up and pushed into the Bengalo Safe. The torch is smothered by the PyroBubbles® extinguishing agent. All that remains is a safely packaged and burnt-out "Bengalo". Thanks to its light weight and two handles, the container can be safely and quickly transported away. The Bengalo Safe from GENIUS is used successfully and safely in many football stadiums and at events.

Uncontaminated PyroBubbles® can be reused without any problems and are completely maintenance-free.

CONVINCING BENEFITS

- Easy to transport container.
- Immediate insulation of the 2000 °C hot torch.
- Protection from burns and smoke.
- Safe storage without risk of fire spreading or injury.
- No risk of re-ignition.
- Reusable and environmentally friendly.
- Age-resistant with sturdy construction.
- Easy to use and quickly on site .
- Lockable locks .
- Ergonomic carrying handles.

GENIUS GROUP

BATTERY & FIRE PROTECTION WITH PYROBUBBLES

Innovative Ideas for Fire Protection, Fire Prevention and Extinguishing

The innovative Bengalo Safe from GENIUS offers a highly effective and easy-to-use product for quick, safe and comprehensive hazard prevention. Wherever rescue teams need a quick and efficient solution. This makes it the perfect protection in stadiums, for pyrotechnicians and at events with fireworks. Well-known football clubs and security forces have been relying on our technologies and products for several years.

TECHNICAL DETAILS

- External dimensions LxWxH: 57,5 x 38,5 x 37,5 cm
- Internal dimensions LxWxH: 55 x 35 x 35,5 cm
- System weight: approx. 22 kg
- Volume: 68 liters
- Number of handles: 2 handles
- Material: Aluminium
- Colour: Aluminium natural
- Closures: 2 pieces lockable
- For media: Pyrotechnic products
- Delivery: Incl. PyroBubbles®
- Article no.: 2401

PyroBubbles® is a DIN EN certified extinguishing agent that won first prize in the "Economy" category in the "Germany - Land of Ideas" competition. It is an extremely light and highly effective extinguishing granulate (8-10 times lighter than sand and floats) that is also used for cable fires, lithium-ion battery fires, liquid fires, magnesium fires, metal fires and in building fire protection. The granulate does not cause any further damage, such as that caused by extinguishing water.
